

Hold Open Restrictor Stay

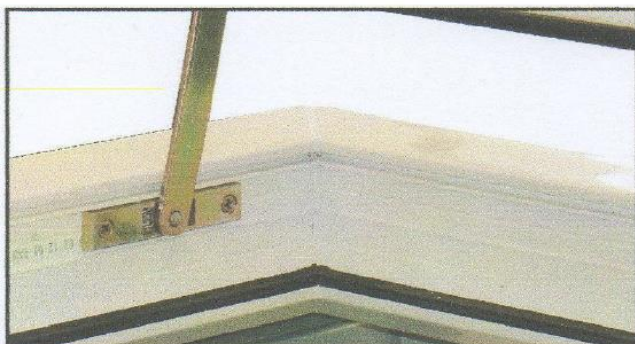

Fitting Instructions

1. Position the restrictor onto the head of the door sash 105mm from the sash rebate corner on the hinge side.

2. Position the anchor plate behind the bead groove on the outer frame 45mm from the corner and screw into position

3. After hanging the sash, clip the arm of the restrictor into the anchor plate.

Note: Should additional friction be required simply tighten the pozi screw in the friction pad.
